<b>Graphic card</b>	Dedicated graphic card	

<sup>1)</sup> Technical Specifications for Mobile Devices

Compatibility with Mobile Devices: 3CAD Next is a web app optimized for browsers based on Chromium technology, compatible with Android and iOS devices. However, support for iOS depends on the tests conducted for each new version of the operating system, due to potential issues introduced by iOS updates.

Requirements for Mobile Devices: Technical requirements vary based on use cases, projects, devices, and operating systems. It is recommended to verify the device's compatibility for the specific use case.
