Get connected with RFMS Rest API

Integrate a variety of your current software solutions with RFMS via the Rest API. Our API allows you to leverage the power of RFMS without giving up the software applications you already use. It is priced to fit your needs with three tiers: standard, plus and enterprise.

API function	STANDARD	PLUS	ENTERPRISE
Create and edit customer	✓	✓	✓
Search for and get customer	✓	✓	✓
Create opportunities (quote, estimate, order header, CRM)	✓	✓	✓
Search for and get quotes and orders (headers and lines)	—	✓	✓
Update header info of quotes/orders (no editing of line items)	—	✓	✓
Export quotes to an order	—	✓	✓
Get PO info for an order line	—	✓	✓
Post a payment to an order (not process) and get receipts	—	✓	✓
Create My Flooring Link reports	—	✓	✓
Search for and get product and inventory information	—	✓	✓
Create claim headers	—	✓	✓
Get/add attachments	—	✓	✓
Create payables	—	✓	✓
Get CRM opportunities (full details) and change logs for the last 7 days	—	✓	✓
Get scheduled jobs by crew or order number	—	✓	✓
Change status and add notes on a job	—	✓	✓
Create provider records	—	✓	✓
Create and edit orders (headers and lines)	—	—	✓
Assign inventory to orders	—	—	✓
Schedule new jobs and edit existing jobs	—	—	✓

A minimum 12-month subscription is required for all tiers. A setup fee may be required. Integration with your software application using the RFMS Rest API requires your own developer.
